

## Enhance Your School Search Using The Owl Boarding Guide

### The Owl Boarding School Guide's Mission

McMillan Education's **Owl Boarding Guide** believes wholeheartedly in the transformative power of boarding schools. Chief amongst the reasons for this belief are the lifelong and life changing relationships we've seen develop and been a part of ourselves in boarding schools. That's why the **Owl Boarding Guide's** mission is centered around the strong partnerships we foster with schools, united by our shared belief in the uniquely positive and powerful boarding experience.

We provide accurate and objective information by featuring schools without barriers or pay-for-play tactics. This approach enhances the credibility of our Guide as a trusted, up-to-date source of information for signature programs, enrollment demographics, school leader contact information, test optional status, among other key features.

### Five Key Features to Enhance Your Search Experience

#### Unbiased & Current Data

Unlike online pay-for-play school databases, we maintain annually curated data characterized by factual, objective descriptions of schools, their critical demographic features, and their unique programming in order to help families gather the information they need to determine the schools that will best fit their child's strengths and interests.

#### Compare Schools Function

Using this unique feature on The Owl Boarding Guide, you can see the demographic, programmatic, and enrollment facts of three schools side-by-side for easy comparison that allows you to focus your search more effectively.

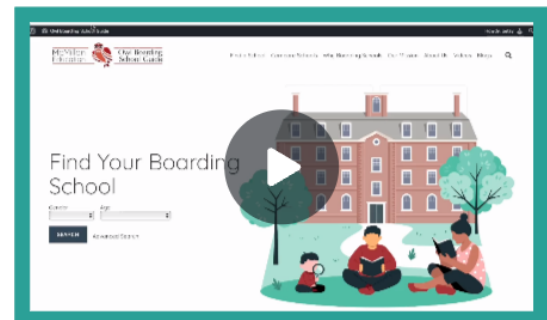

#### Advanced Search Feature

Our advanced search allows users to filter schools by location, population, gender, age, percentage of boarding students, and other attributes like ESL support, Saturday classes, and Summer programs.

#### Map Feature

Are you planning several boarding school visits? Use the map feature to plan your trip.

#### Inside the Owl Guide Videos

Our **Inside the Owl Guide** Videos highlight schools' special programs, culture, traditions, people, and campus experiences through the eyes of School leaders who sit down with our McMillan Education counselors to share their unique perspectives of their schools.
